Mohammad Mansouri

Civil Engineer | Structural Design | Site Supervision | Construction Quality Control

Kerman, Iran · s.mohammad.mansouri67@gmail.com · linkedin.com/in/mohammad-mansouri-68a03225a/

PROFESSIONAL SUMMARY

Civil Engineer with experience in structural design, freelance engineering, civil and structural supervision, and construction quality control across building and industrial projects. Experienced in reinforced-concrete and steel structures, structural analysis, engineering calculations, and construction-site activities.

PROFESSIONAL EXPERIENCE

Kian Madan Pars — Civil and Structural Supervisor | Jan 2018 – Jun 2026

Industrial construction and quality control at a copper-mining complex in mountainous Kerman Province. Work included supervision of steel structures and selected concrete buildings, concrete production and placement, slump testing, cold-joint risk management, mass-concrete temperature monitoring, reinforcement inspection, material testing, earthworks, compaction, road construction, and contractor/site coordination. Work included supervision related to a primary crusher building involving approximately 12,000 m³ of concrete.

ATIE-NEGAR-KALUT-KAVIR — Structural Design & Site Supervision | Dec 2012 – Mar 2018

Structural analysis and design of reinforced-concrete and steel buildings of up to seven storeys; structural modelling, engineering calculations, preparation of drawings, application of Iranian building regulations and seismic requirements, and site supervision.

Freelance Structural Engineer

Structural analysis, calculations, and drawings for building projects.

EDUCATION

M.Sc. in Civil Engineering — Hydraulic Structures, Shahid Bahonar University of Kerman, Iran

B.Sc. in Civil Engineering, Shahid Bahonar University of Kerman, Iran

CORE EXPERTISE & SOFTWARE

Structural analysis and design; reinforced-concrete and steel structures; civil and structural supervision; construction quality control; engineering calculations; technical drawings; concrete technology; AI-assisted engineering problem-solving. Software: ETABS, SAFE, SAP2000, AutoCAD, Microsoft Excel.

CODES AND STANDARDS

Iranian National Building Regulations · Iranian Standard 2800 · ASCE 7 · ACI 318 · AISC 360 · AISC 341 · AISC 303
